BURNING HEARTS

RESOURCE GUIDE: Theology of the Body

Dear Fellow Disciple,

Theology is a word that often intimidates us. It seems like something reserved for professors and priests.

The word "theology" literally means "the study of God." Since God calls all his children to know, love and serve him, studying theology is something he calls of us to do. This is particularly true of St. John Paul II's theology of the body — the study of the meaning and purpose of the human person and what we reveal about the One in whose image we were made.

Our prayer is that this Resource Guide will help you to grow in understanding and appreciation of St. John Paul II's beautiful teaching on the Theology of the Body.

If you have questions, concerns, or find that the resources here aren't exactly what you need, please don't hesitate to contact us.

WHAT IS...

THEOLOGY OF THE BODY?

The Theology of the Body was the topic of 129 talks given by Saint John Paul II during his Wednesday addresses between September 1979 and November 1984.

The word *theology* comes from the Greek root words *theos* (God) and *logia* (word). Theology, then is literally a “word about God.” St. John Paul II’s Theology of the Body, then, can be described as a word about God and the body.

An Adequate Anthropology

St. John Paul II said that in developing these addresses he was trying to provide people with an “adequate anthropology.” What does that mean?

The Theology of the Body came out of St. John Paul II’s extensive study of humanity and philosophy. He witnessed and experienced the horrors of Nazi communism first hand in Poland during World War II. He studied philosophy extensively and found that modern philosophical thought was missing something. The world was losing an appreciation for the interconnectedness between God and man, the world and the Divine, the body and the soul.

The meaning of human life, the definition of healthy relationships, and authentic Christian identity were being lost amid a culture that valued physical comfort and power. When Pope John Paul II said he wanted to provide people “adequate anthropology” he meant he wanted to present good answers to those questions.

Nuts & Bolts

At its core, the Theology of the Body helps us to answer two major questions:

- ▶ **Who is God?**
- ▶ **Who Am I?**

St. John Paul II examines the creation of man and woman in Genesis, Jesus’ words in the Gospels, and other Scripture texts to help answer these big questions. The answers to those questions in the Theology of the Body then provide us a lens through which we can view all other aspects of our lives: our relationships, our worship, our morality, even our culture.

Guiding Points

When answering those two questions, St. John Paul II reminds us:

- ▶ God created humanity in His image (Gen 1:26)
- ▶ God created humanity male and female (Gen 1:26).
- ▶ God created humanity with body and soul (Gen 2:7).
- ▶ God saw that humanity—male and female, body and soul—was “very good” (Gen 1:31).

As he examines and explains the Scripture texts, St. John Paul II helps us to see how God reveals Himself to us through the physical world—including and especially through our bodies.

More than “Catholic Sex”

If you have any familiarity with the Theology of the Body at all, it is most likely through Catholic sexual morality. Natural Family Planning advocates, marriage preparation programs, and chastity speakers were among the first to embrace this profound and rich teaching. It's true that the Theology of the Body addresses sexual morality issues like pre and extra marital sex, contraception, the definition of marriage, masturbation, and pornography.

It's also true that the Theology of the Body is about so much more than sex. Today, more and more Catholic theologians, teachers, speakers, and writers are embracing the many different applications of St. John Paul II's “adequate anthropology.”

Nothing New

One of the beautiful things about the Theology of the Body is that it's as old as creation itself.

“What is new is the delivery system — the language, structure and approach that gets the Church's sacramental worldview into the minds of men and women raised in a sexually crazed and morally confused world. Which is why that delivery system is meant to be studied by accountants, lawyers and the guys working the line at the Subaru plant in Lafayette, Ind. It's theology for everyone who needs it. And we all need it.”

These Beautiful Bones: An Everyday Theology of the Body by Emily Stimpson

These Beautiful Bones takes you on a walk through those rooms. With both humor and practical wisdom, it sheds light on what the theology of the body has to say about life beyond the bedroom—about the everyday moments that make up a life—helping you discover how to let grace enter into those moments and make of them something extraordinary.

Theology of the Body for Children

by Kristin Bird

The Theology of the Body text is philosophical and heady. It can be difficult for many adults to grasp, let alone children. There are some great resources that help distill this teaching at various levels including beginners, adults, teens, and even middle school aged children (see page 7 for some great family resources).

But what about younger children? How do we raise our children to view their world through the sacramental lens of the Theology of the Body when the themes and format of the text itself are not age appropriate?

Big Picture

Remember, the Theology of the Body doesn't stand apart from the rest of our Catholic life. If you teach your child about the dignity of human life, the beauty of all creation, the mystery and goodness of the body, how we are to treat others with respect and love, and how we are created male and female, you will prepare them to understand the Church's teachings on more specific issues (like sexuality) when they are ready.

Present the Bible as the love story between God and his people. Affirm your child's questions about faith by telling them that their questions reveal our desire to understand God and his loving plan for us. Avoid discussing morality exclusively in terms of rules and punishments. Instead, present moral teachings as a guide that help us understand what it means to be truly loving to ourselves and others.

Body Language

One of the key points St. John Paul II makes in the Theology of the Body that children can easily grasp is that our body speaks a language. Start by pointing out to your children how their bodies speak (when they roll their eyes, give a hug, or hit a sibling).

Explain that God created our bodies as a way to show His love. Anytime we speak a different, non-loving message with our actions, we lie with our bodies.

Choose Words Carefully

Think about the way you speak to your children about their bodies. Using the correct terminology for their body parts and bodily functions, can help children appropriately respect and honor the body. Cutesy baby words and immature nicknames often reinforce the idea that the body is somehow less than important or valued.

It is also important to be cautious of overly negative descriptions of normal bodily functions (bowel movements, gas, urination, menstruation, etc). Overused, this language can introduce and reinforce for children that way God created the body to work is somehow bad.

Use the Physical World

In the Theology of the Body, St. John Paul II tells us that the physical (our bodies, creation, etc) makes visible the invisible (God's presence and love). Help your children practice seeing the visible examples of God that are made visible by the physical world. At Mass, point out that Jesus' invisible presence is made visible to us in the physical bread and wine at consecration. When reading the Bible, point out that God used the rainbow (physical) to make visible his invisible promise (to never again flood the world).

Be An Example

Continue to grow in your own understanding and appreciation of the teachings of the Theology of the Body. Be honest and open (at age appropriate levels) about how you work to live the virtue of chastity within your current state in life.

Be extravagantly generous (and expects extravagant generosity in return) to your spouse, children, and friends—especially with intangible things like acts of service, words of affection, and physical affection. Keep yourself and your family rooted in communal and individual prayer.
